

# Science Vision

We believe science is a crucial discipline and vital to the world's future prosperity. We are embedding an exciting, practical, high-quality science curriculum that provokes questioning, curiosity and the accurate use of scientific vocabulary.

We will develop children's knowledge of their immediate environment and features of the familiar, natural and constructed worlds. We will maximise use of our locality including the school grounds.

The curriculum will inspire the next generation to excel and succeed in science as they discuss, question, measure, predict, test fairly, reason why and solve problems building their scientific knowledge systematically.

Science at Fulwell Infant School Academy is good when ...

S

We use accurate **S**cientific vocabulary to explain our reasoning and understanding.

C

We observe, measure, **C**lassify, compare and test fairly, always working safely.

i

We pose questions, make a prediction and **I**nvestigate whether we are correct.

e

We use our **E**nvironment /locality to investigate, recording predictions and outcomes in different ways.

n

We explore the **N**atural world

C

We develop our **C**uriosity

e

There is a sense of **E**xcitement and enjoyment.
