

British Values at Fulwell Infant School Academy 2026 - 2027

At Fulwell Infant School Academy, we actively promote British Values through our curriculum, enrichment programme and daily school life. These values are at the heart of everything we do and support our children in becoming respectful, responsible and active members of both our school community and the wider world.

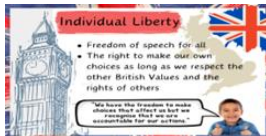

We aim to provide a safe, inclusive and nurturing environment where every child feels valued and confident to express themselves. Through a carefully planned curriculum, assemblies and enrichment opportunities, pupils develop an understanding of how to live and work alongside others with kindness and respect.

Democracy – Ensuring children have a voice through discussion, voting, school council and shared decision-making.

Rule of Law – Helping children understand the importance of rules, fairness, responsibility and consequences in keeping everyone (and the environment) safe.

Individual Liberty – Encouraging children to make their own choices, develop independence and express their ideas within a safe and supportive environment.

Mutual Respect – Promoting positive relationships, teamwork, empathy and an understanding that everyone is equally valued.

Tolerance – Celebrating diversity and helping children understand and appreciate different cultures, religions and ways of life.
